DETAILED ACTION

1. The Request for Continued Examination filed on March 10, 2005 is acknowledged and the amendment filed on February 3, 2005 has been entered.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 8-12, 14-16 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Allen.

Allen teaches a hitch having the structure as claimed. The device includes a base 50, which supports a jaw, a jaw (the forward end of pawl 74) including a receptor (80), a biasing member 82, a release mechanism (the rearward end of pawl 74) having an arm (the middle section of 74) configured to engage the receptor (the middle section of 74, i.e., the arm of the release mechanism is configured to engage the receptor integrally) and a foot step 90.
